## SKILLS AND ABILITIES

### **Heavy Equipment**

- Gained experience operating CAT, Kraz, Komatsu, Hitachi and Hyundai Excavators along with John Deere tractors and excavators
- Operated heavy equipment to excavate, move, load and grade earth, rock, gravel and other materials for construction projects
- Deepened waterways and moved soil using heavy trenching equipment
- Operated power shovels to excavate rock, ore and other materials for open pit mines, strip mines and quarries on construction pits
- Moved loads and unloaded cargo using heavy equipment
- Operated excavator to clear brush and stumps prior to logging and to build roads
- Drove piling into ground to provide support for buildings, bridges and other structures using CAT
- Gained experience with quarrying, road construction, reclamation and mining
- Conducted pre-operational checks on equipment and cleaned, lubricated and refilled equipment

### **Organization**

- Followed safe work practices and defined procedures
- Valued for impeccable standard for maintaining clean and organized environments
- Utilized excellent communication skills to work as part of a team and also worked well under minimal supervision
- Demonstrated strong initiative, a positive attitude and a dedication to learn new skills quickly
- Collaborated with cross-cultural teams and interacted well with all levels of organizations

- Maintained communication with all staff on site to ensure work was completed to high standards and safely
- Extremely goal oriented and problem solve effectively to reduce downtime
- Showed flexibility to adapt to changing workplace demands and weather
- Attended safety meetings on a regular basis
